# **General Usage**

## **Changing Banks**

Step on Switches [A + B] together to bank down and Switches [B + C] to bank up. There are a total of 30 banks on the MC6.

### **Switch and Display Names**

#### **Activating Presets**

Each switch corresponds to the display name closest to it. Pressing switch [A] activates Preset A, switch [B] activates Preset B and so forth.

If you have an external aux switch connected to the MC6, depending on how it is wired, it will invoke Presets G-L.

## **Mapping Actions to Midi Types**

The MC6 MKII allows you to map actions taken on the switches to Midi Types and functions. For example, you can map a CC#1 message to a Press action, and a CC#2 message to a Release action. When the switch is pressed, a CC#1 message will be sent, and when the switch is released, a CC#2 messages will be sent. There is a list of actions available to you.

- 1. Press
- 2. Release
- 3. Long Press
- 4. Long Press Release
- 5. Double Tap
- 6. Double Tap Release
- 7. Long Double Tap
- 8. Long Double Tap Release
- 9. Release All

### **Dual Switch Functions**

The MC6 makes use of dual switch combination to carry out certain functions.

Function	Switch
Bank Down	A+B
Bank Up	B+C
Edit Menu	D+F
Toggle Editor Mode	eC+D
Toggle MIDI Thru	A+F

Besides this, you can also use dual switch presses to call the extra presets.
